

## Dave Bermann

Photography

Being primarily self taught, I went from serious hobby photography to shooting commercial and wedding photography in 1992, in the days of film. In 2003 the digital revolution took off and I became a practitioner of that medium. I have always taken workshops and courses to improve my skills, to the point where I am now using the digital medium to shoot high quality photos, then craft them into new and interesting images. My wish is to take ever higher quality and interesting images, while continuing to share my skills and knowledge with my students.

# Have you PLAYed today?
