

Erika Vieyra

Online Drivers Education

I have been a licensed driving instructor for 14 years. I have CA DMV License #2559-021. I also have a BS in Business at California State University Hayward. It has been argued that driving is one of the most important skills that a person can possess in his or her lifetime. With excellent Driver's Education, we can make a difference and assist in minimizing traffic collision involving teens. My course was created to provide our students with the foundation necessary in developing into a defensive driver.
